2nd November 2010

Forum8 host annual Design Festival

Forum8, the award winning Japanese 3D VR specialists will be hosting its annual 3 day Design Festival from 17th to 19th November 2010.

This year marks the 24th anniversary of the company's formation. The 3 day event comprises a Design Conference on Day 1, the UC-win/Road Conference and International VR Symposium on Day 2 and the UC-win/Road 3D VR Simulation Contest on Day 3.

In addition there are a number of renowned local & overseas speakers including Aidan Chopra from Google and Professor Galea from the University of Greenwich, UK. The international academic group, World 16, will also be sharing interesting insights on advanced VR research based on Forum8's 3D Visual Interactive Simulation technology **UC-win/Road**.

In addition, Forum8 will also be showcasing the various new functions of UC-win/Road Version 5, including the cloud computing system and the 3D point-cloud interface.

These exciting new developments also include the demonstration of the company's 3D engineering services software, newly-launched BIM & VR solutions and a driving simulator exhibition.
